

Stained Glass Supplies

CECH 497

For first class, you will meet with instructor for 1 hour to select a pattern for an 8x10 design. The instructor will assist you in determining what amount of glass you will need to purchase. You only need to purchase glass, as we provide all the tools and small materials to use for your project. If you make additional projects, you may need to purchase additional materials.

You may contact the instructor, Dale Augustson at 417-865-3360 or 417-860-5333.
